Reviews

A must buy book if you need to adding benefit. I have read through and i also am certain that i will likely to read through once again yet again in the future. Its been designed in an exceedingly simple way and is particularly merely after i finished reading this publication by which really modified me, modify the way i think.

(Mrs. Jacquelyn Gutmann)

SIX MONTHS, THREE DAYS, FIVE OTHERS (HARDBACK)

St Martin's Press, United States, 2017. Hardback. Condition: New. Language: English. Brand new Book. "A master absurdist. Highly recommended." - The New York Times Before the success of her debut SF-and-fantasy novel *All the Birds in the Sky*, Charlie Jane Anders was a rising star in SF and fantasy short fiction. Collected in a mini-book format, here--for the first time in print--are six of her quirky, wry, engaging best: In "The Fermi Paradox Is Our Business Model," aliens reveal the terrible truth about how humans were created--and why we'll never discover aliens. "As Good as New" is a brilliant twist on the tale of three wishes, set after the end of the world. "Intestate" is about a family reunion in which some attendees aren't quite human anymore--but they're still family. "The Cartography of Sudden Death" demonstrates that when you try to solve a problem with time travel, you now have two problems. "Six Months, Three Days" is the story of the love affair between a man who can see the one true foreordained future, and a woman who can see all the possible futures. They're both right, and the story won the 2012 Hugo Award for Best Novelette. And "Clover," exclusively written for this collection, is a coda to *All the Birds in the Sky*, answering the burning question of what happened to Patricia's cat.
